SECTION 2

How pricing works

Every service has three packages — Foundation, Growth, and Enterprise — priced one of three ways. You always receive a written scope, timeline, and price before any work begins.

Project-based	Monthly programs	Advisory engagements
A fixed price for a defined scope, paid at kickoff and launch, or by milestone on larger projects.	Ongoing work billed monthly. Month-to-month — no long-term contract.	A fixed-price assessment first, then optional monthly advisory or fractional CTO leadership.
• Web Development • Mobile Apps • Brand Identity • UX/UI Design • AI & Automation	• SEO • Digital Marketing • Social Media Management • Website Care & Maintenance	• Technical Consulting

Payment terms

Projects	Typically billed 50% at kickoff and 50% at launch.
Larger projects	Projects over $5,000 can be split into milestone payments.
Monthly programs	First month at kickoff; SEO, marketing, and care plans continue month-to-month — no long-term contracts.
Fixed-price guarantee	Once a client approves the written scope, the price is locked — it only changes if they approve new work in writing.
Starting prices	A “+” is a minimum; a range (e.g. $4,000–$12,000) covers typical projects. The exact fixed price is set in writing.
Changing plans	Clients can move between plans, add services, or add a care plan at any time.
Nonprofits	Special pricing is available for qualified nonprofits.
Before any work	Free consultation, then a written scope, timeline, and price — at no cost.

SECTION 3

Build

Websites, web platforms, and mobile apps engineered to perform.

Web Development

We design and engineer fast, secure websites and web platforms — from marketing sites to customer portals — that turn visitors into revenue.

Page: visitcardinal.com/services/web-development

FOUNDATION

Marketing Website

$3,500
one-time

A credible, fast website that turns local searches into qualified leads.
Timeline: Typically 72 hours – 2 weeks

- ✓ Built to turn visitors into calls, bookings, and form leads
- ✓ Up to 10 custom-designed pages — no templates
- ✓ Mobile-first, fast-loading build
- ✓ Google-ready SEO foundation & analytics
- ✓ Lead capture: forms, click-to-call & Google Maps
- ✓ SSL, hosting setup & launch
- ✓ 2 rounds of revisions
- ✓ 30 days of post-launch support

GROWTH · MOST POPULAR

Business Growth Website

$6,500
one-time

Growing companies that need their website to sell, book, and integrate — not just inform.
Timeline: Typically 4 – 8 weeks

- ✓ Conversion-led page structure that turns more traffic into revenue
- ✓ Everything in Marketing Website
- ✓ Up to 30 custom pages
- ✓ CRM, booking, payment & system integrations
- ✓ Customer portals & secure logins
- ✓ AI features & automations (assistants, smart forms)
- ✓ Online store: catalog, checkout, payments, shipping & tax
- ✓ Conversion & revenue tracking
- ✓ 3 rounds of revisions · 90 days of support

ENTERPRISE

Custom Platform

$15,000+
starting price

Complex platforms, dashboards, and applications that run core parts of your business.
Timeline: Scoped on your consultation

- ✓ A platform built around how your business actually operates
- ✓ 30+ pages & fully custom features
- ✓ Customer portals, dashboards & internal tools
- ✓ Custom backend & API integrations
- ✓ Multi-language support
- ✓ Security audit & compliance review
- ✓ Priority 24/7 support
- ✓ 12 months of maintenance & updates

Note from the Web Development FAQ: A Marketing Website (up to 10 pages) is a fast, professional site that explains what you do and turns visitors into leads. The Business Growth Website is for companies that need their site to sell, book, and integrate — up to 30 pages with customer portals, CRM and payment integrations, AI features, or online sales. Websites over 30 pages and complex platforms are Custom Platform projects, starting at $15,000. Every plan is scoped in writing with a fixed-price guarantee.
